- -Peak pulse current rating  $(I_{PP})$  is repetitive and guaranteed for the life of the product;
- -Bencent only makes the test for  $5/320\mu s@150A^*$  ( $10/700\mu s@3KV$ ), but for other IPP value derived from experience is just for reference only. Bencent will not take any obligation for these parameters, so before applying our parts, please make sure to verify the parameters listed in the above table.
